

**Criteria for assessing students' knowledge in the conduct of final module control № 2**

		<b>Type of work</b>	<b>Score</b>	
1.	<b>Tests form A «KROK-1» (50 tests):</b>			25
		49-50 correct answers (0-1 incorrect answers)	25	
		47-48 correct answers (2-3 incorrect answers)	24	
		45-46 correct answers (4-5 incorrect answers)	23	
		43-44 correct answers (6-7 incorrect answers)	22	
		41-42 correct answers (8-9 incorrect answers)	21	
		40 correct answers (10 incorrect answers)	20	
		More than 10 incorrect incorrect answers	0	
2.	<b>Pharmacodynamics (5 Medicines)</b>			25
	To each medicine	Correctly specified group affiliation	1	5
		Correctly indicated pharmacological effects	2	
		Correctly indicated indications for clinical use	2	
3.	<b>Group membership of medicines (3 pharmacological groups)</b>			20
	Full answer	The principles of distribution into groups are reflected and all the preparations that are relevant to the relevant groups according to the Program	10	
	Incomplete answer	The principles of distribution into groups are partially reflected and all preparations are not indicated	6	
		Reflected only drugs that belong to this pharmacological group	4	
4.	<b>The task of professional competence</b>			5
	Full answer	The pharmacotherapy of the urgent condition in full	5	
	Incomplete answer	The pharmacotherapy of an urgent condition not in full	3	
	No answer		0	
5.	<b>Task for the treatment of acute poisoning</b>			
	Full answer	The main symptoms of poisoning and treatment (antidote) in full	5	
	Incomplete answer	The main symptoms of poisoning and treatment (antidote) not in full	3	
	No answer		0	
			<b>Maximum score</b>	80
			<b>Minimum score</b>	50

Head of the Department of Pharmacology,

Doctor of medical sciences, professor

 Zaychenko A.V.
