

Module 1

Prescribe the drug and define its pharmacological group, indication, mechanism of action

- Novocainum in ampoules for infiltrational and conduction anaesthesia.
- Lidocainum in ampoules.
- Anaesthesinum in ointments, aspersions, pastes and rectal suppositories.
- Solution of Tanninum for internal and external use.
- Mentholum in ointment for nose.
- Activated charcoal (Carbo activatus) in tablets and non-divided powder.
- Enterosgelum.
- Solution Ammonii caustici in ampoules and vials.
- Atropini sulfas in ampoules and vials (eye drops).
- Platyphyllini hydrotartras in ampoules.
- Ipratropii bromidum (Atrovent) for inhalation.
- Pirenzepinum in tablets.
- Proserinum in ampoules and tablets.
- Galantamini hydrobromidum in ampoules.
- Alloxinum in ampoules.
- Pilocarpini hydrochloridum in vials (eye drops).
- Anatruxonium in ampoules.
- Dythylinum in ampoules.
- Adrenalini hydrochloridum in ampoules.
- Noradrenalini hydrotartras in ampoules.
- Mezonum in ampoules and powders.
- Naphthysinum in vials (drops for nose).
- Propranololum (Anaprilinum) in ampoules and tablets.
- Atenololum in tablets.
- Metoprololum in tablets.
- Salbutamolum for inhalation.
- Fenoterolum for inhalation.
- Prazosinum in tablets.
- Doxazosinum in tablets.
- Reserpinum in tablets.
- Methyldopa in tablets.
- Ketaminum in ampoules.
- Natrii oxybutiras in ampoules.
- Zolpidem in tablets.
- Natrii valproas in tablets.
- Carbamazepinum in tablets.
- Nitrazepamum in tablets.
- Phenobarbitalum in tablets.
- Levodopa in capsules.
- Morphini hydrochloridum in ampoules.
- Tramadolium in tablets and ampoules.
- Promedolum in ampoules.
- Naloxonium in ampoules.
- Acidum acetylsalicylicum in tablets.
- Analginum in tablets and ampoules.
- Diclofenac-natrium in tablets and ampoules.
- Paracetamolium in tablets and rectal suppositories.
- Celecoxib in tablets.
- Aminazinum in dragee and ampoules.
- Droperidolum in ampoules.
- Diazepamum in tablets and ampoules.
- Phenazepamum in tablets.
- Gidazepamum in tablets.
- Tinctura Valerianae.
- Coffeini-natrium benzoas.
- Amitriptylinum in tablets and ampoules.
- Fluoxatinum in tablets.
- Cordiaminum in ampoules.
- Sulfocamphocainum in ampoules.
- Aethimizolum in ampoules.
- Pyracetamum in tablets and ampoules.
- Thiamini chloridum (amp., tab.)
- Acidum ascorbinicum (amp., tab.)
- Acidum nicotinicum (amp.)
- Rutinum (tab.)
- Sol. Ergocalciferoli oleosa
- Sol. Tocopheroli acetatis oleosa (amp.)
- Sol. Retinoli acetatis oleosa (caps.)
- Corticotropinum
- L-Thyroxinum (tab.)
- Insulinum
- Glibenclamidum (tab.)
- Metformini hydrochloridum (tab.)
- Prednisolonum (tab.)
- Sol. Retabolili oleosa (amp.)
- Sol. Progesteroni oleosa (amp.)
- Diazolinum (dragee)
- Suprastinum (tab.)
- Dimedrolum (amp.)
- Loratadinum (tab.)
